About the Delaware County Down Syndrome Interest Group:

- The Delaware County Down Syndrome Interest Group (DSIG) was formed in 1988 by a group of families touched by Down syndrome. Its mission includes the following:
- To reach out to expectant and new parents of a child with Down syndrome.
- To be supportive of and provide social interaction for people with Down syndrome, their families, friends and acquaintances.
- To aid and challenge each family to constantly evaluate and re-think how new ideas, information and technology may help or affect their child with Down syndrome.
- To educate the general public by assisting members of our community in learning to see people with disabilities as people, not as their disability.
